
Original scenario 1 | all 5 attempts
20261009_070714_all_d8c3cf
A1: off_route
A2: completed
A3: completed
A4: completed
A5: completed
map vehicle yaw [deg, unwrapped]
body heading error [deg]
Time since each running start [s]
Top: scalar odom orientation.z; unwrap separately per attempt. Bottom: lower reference-path error.
Error shown only with valid QP or error feedback in modes 0/1/2/5; gaps are excluded samples. Not EKF-SIH difference.

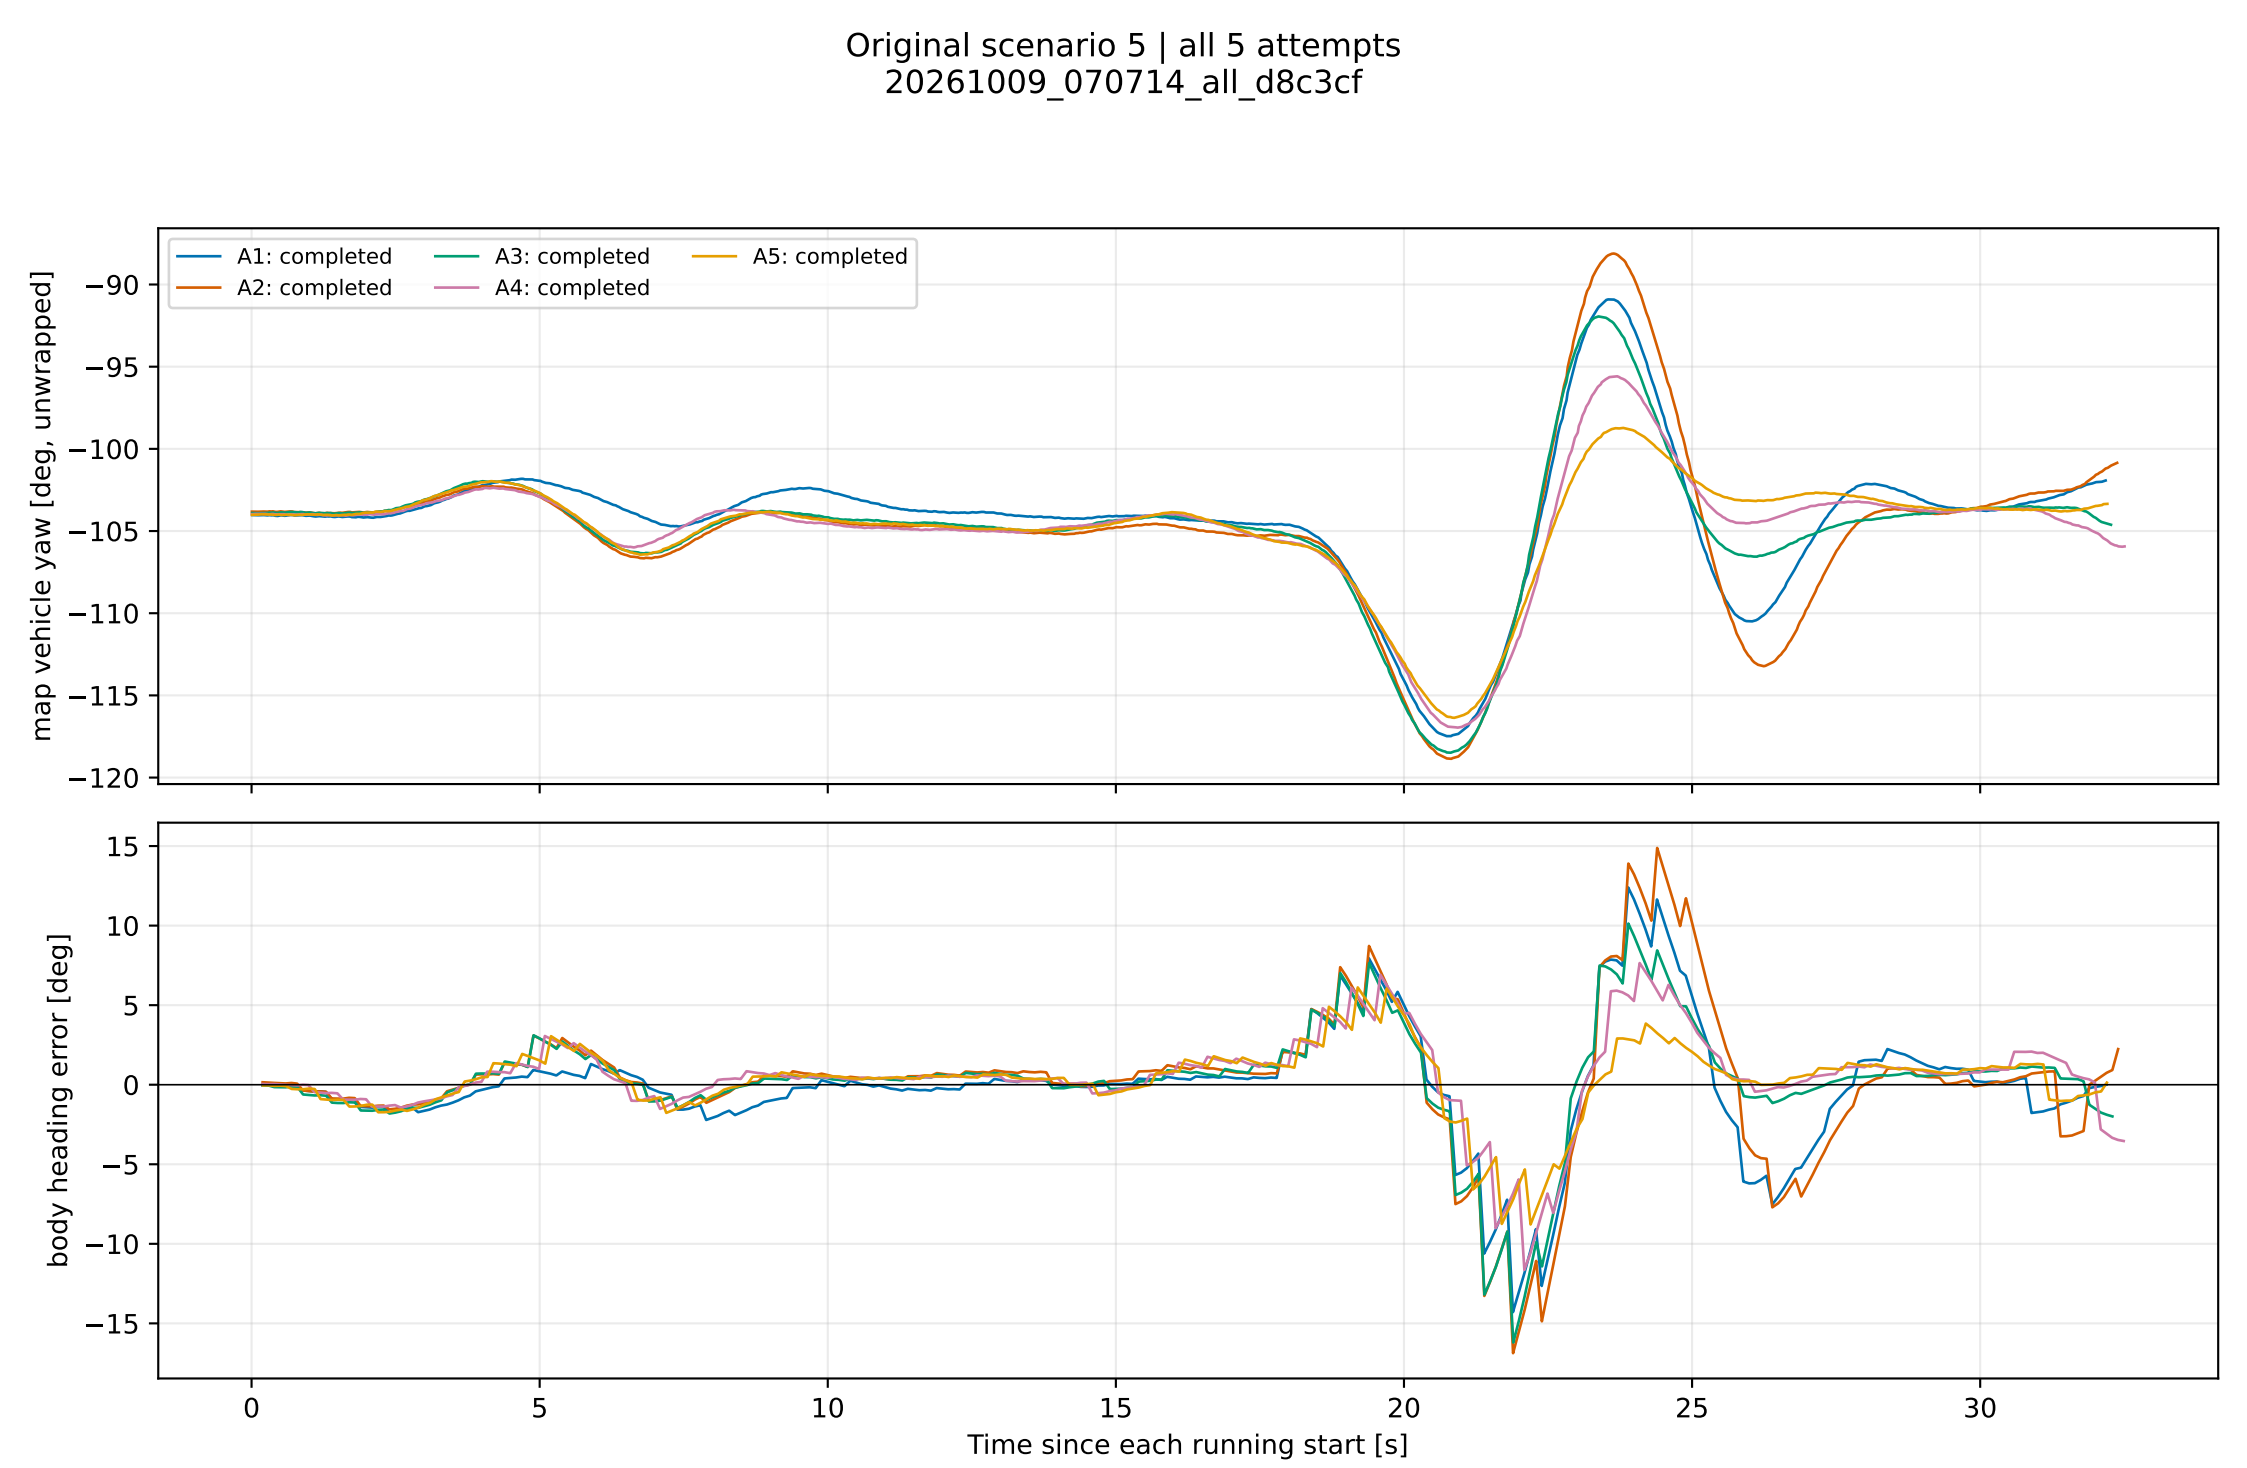

Original scenario 2 | all 5 attempts
20261009_070714_all_d8c3cf
A1: stopped_10s
A2: stopped_10s
A3: off_route
A4: off_route
A5: off_route
map vehicle yaw [deg, unwrapped]
body heading error [deg]
Time since each running start [s]
Top: scalar odom orientation.z; unwrap separately per attempt. Bottom: lower reference-path error.
Error shown only with valid QP or error feedback in modes 0/1/2/5; gaps are excluded samples. Not EKF-SIH difference.
